TENTATIVE APPROVAL OF A HAZARDOUS WASTE FACILITY CLOSURE

EPA ID KYD-006-387-021, AI 2050

The Kentucky Environmental and Public Protection Cabinet's (Cabinet) Division of Waste Management (Division) has tentatively approved a Hazardous Waste Accumulation Facility Closure for General Electric Appliance Park. General Electric Appliance Park is located at 4000 Buechel Bank Road, Louisville, Ky. The facility contact, Michael Goldstein, may be reached at 502-452-3468.

Why is a Closure Necessary?

General Electric Appliance Park operated a hazardous waste container storage building from 1980 to mid-1998 for shipment of hazardous waste to off-site disposal facilities. The hazardous waste container storage building initially managed hazardous waste onsite for greater than 90 day storage and as such was considered a hazardous waste management unit under interim status. In 1988 the building was converted from long term storage of hazardous waste to less than 90 day storage of hazardous waste. This conversion was made without ceasing operations to undergo regulatory closure. Upon discontinuance of the 90 day storage activity in 1998, the facility was then subject to 401 KAR 35:070 closure requirements for hazardous waste management units. The work necessary for closure has been completed and determined by the Division to satisfy all requirements pending public notice.
